

Five Little Bunnies

One little bunny was feeling blue,
So he went to a friend's house and then there were two.
Two little bunnies hopped to a tree,
A bunny lived there and then there were three.
Three little bunnies jumped out the door,
They met another and then there were four.
Four little bunnies were soon to arrive,
At another friends house and that makes five!
Five little bunnies are going to have some lunch.
So they ate a bunch of carrots: nibble, nibble, crunch!
